One Platform of BIM Sharing for Hong Kong 香港建筑信息模拟技术共享平台

HKIC is setting up a common platform that could facilitate the Hong Kong's construction industry-wide sharing on: BIM event calendar, BIM training calendar, white paper, case study, family library, etc. The family library would be leveraged by existing resources of Hong Kong Housing authority's, New World Development's, Hong Kong FLIP's, or other contributors' family library.

香港建造业议会正建立一个共享平台,期望能协助香港建造业界有效分享以下的资源:建筑信息模拟活动时间表、建筑信息模拟培训时间表、指导性文本、个案研究及族群资源库等。计划中的族群资源库会利用业界持分者现有的资源,包括如香港房屋委员会、新世界发展有限公司、F.L.I.P.及其他热心协助持分者所贡献个别的族群资源库集结而成。

BIM论坛

Collaborate with the Industry and Liaise with BIM Solution Providers 集合业界并与BIM系统供应机构协商

HKCIC will continue to collaborate with the industry and to liaise with BIM solutions providers, especially the systemic issues, like:

议会将持续与业界合作并与BIM系统供应机构协商，尤以系统上的议题，如：

- Mandatory use of public cloud 强制使用公用云端服务
- Possible data loss during system upgrade 于系统提升时的信息流失
- Lack of backward compatibility with earlier versions 新版本缺乏与旧版本兼容
- Lack of flexibility on subscription package 未能提供弹性收费模式
- Un-learn the past modelling method and need to re-learn the new one 旧有建模方法未能适用于新版本上
