- 1. Column headers that are colored GREEN are optional but strongly encouraged, and the data will be used to report performance metrics of Priority 2 or additional BIM benefits.
- 1(a). Cells in Light Green are optional, open-ended textual responses. Please provide short textual responses to these cells where applicable.
- 1(b). Cells in Light Cyan are optional responses with selection choices provided. Please select the appropriate response where applicable.

Note: Rows 9 and 10 (shown in light grey background) are examples for illustration

2. The BIM Impacts reported in this tab should be cumulative of the contract to document the BIM impacts achieved by the BIM implementation up till the current reporting period.

2. The BIM Impacts reported in this tab should be cumulative of the contract to document the BIM impacts achieved by the BIM implementation up till the current reporting period.						
BIM Commitment [Note: a BIM commitment is a contractual BIM task or an						
item in the project PxP/BEP, and the completion of a BIM commitment should						
significantly contribute to fulfilling the stated BIM Use of the relevant BIM use.						
The project team is recommended to establish up to 5 BIM commitments for				Completed		
each reporting period]	Lead(s)	Due Date	Status	on-time?	Remarks	
Initial model submission for foundation	BIM Consultant	31/12/2018	Completed	Yes	initial model submitted and accepted	
Initial model submission for slip roads	BIM Consultant	31/12/2018	Completed	Yes	initial model submitted and accepted
