## **Notes:**

## You should report the status of client and project objective achievements at the LAST reporting period, however you are welcome to report these achieved objectives if they are accomplished earlier.

1. Column headers that are colored GREEN are optional but strongly encouraged, and the data will be used to report performance metrics of Priority 2 or additional BIM benefits.

1(a). Cells in Light Grey refer to data (client objectives and project objectives) filled out in the Contract Initiation excel sheet. Please directly copy the data to these cells.

1(b). Cells in Light Green are optional, open-ended textual responses. Please provide short textual responses to these cells where applicable.

1(c). Cells in Light Cyan are optional responses with selection choices provided. Please select the appropriate response where applicable.

Note: Rows 11 and 12 (shown in light grey background) are examples for illustration

				Quantified BIM Impact						
	Project Objective	Project Objective Achievement Level: [1] - [5] in increasing degree of satisfaction [1]: Does not meet target [2]: Somewhat meets target [3]: Meets target	Client Objective Achievement Level: [1] - [5] in increasing degree of satisfaction [1]: Does not meet target [2]: Somewhat meets target [3]: Meets target					% difference from Typical Value Note: in cases where Typical Value = 0, override the formula and	Value Note: in cases where Target	
	(Should be in alignment with the Project Objectives	[4]: Exceeds target	[4]: Exceeds target					report absolute	difference	
Client Objective	established in Agreement/Contract Initiation workbook)	[5]: Far exceeds target	[5]: Far exceeds target	Typical Value	Target Value	Actual Value	Unit	value instead	instead	Justification / Remarks
