Dr. Wendy LEE  
Autodesk Far East Ltd  
Suite 1405, 14<sup>th</sup> Floor, Great Eagle Centre  
23 Harbour Road  
Wan Chai  
Hong Kong

Dear Dr. LEE,

**Thank you for the handover of F.L.I.P. Master Type List to the CIC**

On behalf of the Construction Industry Council (CIC), I would like to express my sincere gratitude to the Autodesk Industry Advisory Board (AIAB), specifically your contribution on the development of Family Library Interchange Program (F.L.I.P.) Master Type List.

To encourage a naming convention / standard of BIM objects for BIM adoption in the Hong Kong construction industry, "Family Library Interchange Program" (F.L.I.P.) is led by AIAB and collaboratively developed among Autodesk Far East Ltd, Advanced Construction Information Development Ltd (A.C.I.D.) and Synnex Technology International (HK) Ltd.

We are delighted that F.L.I.P. Master Type List is handed over from AIAB to the CIC on 1 June 2022 and the CIC incorporates it into a brand-neutral and software-neutral CIC's Master List.

Once again, thank you for AIAB's contribution. We look forward to your continued support to promote and facilitate BIM adoption in the Hong Kong construction industry.

Yours Sincerely,

Mr. Alex HO  
Assistant Director - Industry Development
